CARRFLEX® Important Messages

CAUTION!

To avoid premature degradation of the surface coating never use an abrasive cloth, sponge or other similar device on the surface. Wipe off cleaning product residue with a clean, soft cloth and rinse with fresh warm water immediately after use. Allow the surface to dry completely before use.

IMPORTANT INFORMATION:

Cleaners/disinfectants can cause discolouration/bleaching on some colours. To avoid discolouration, always check on a small area first.

Information contained here is purely related to the compatibility of cleaners with CARRFLEX® materials and in no way relates to the efficacy of any cleaner for infection control or the safety of any cleaner for skin contact.

Testing info is specific to the products or formulations listed and in no way constitutes approval for other products from any brand listed without being tested.

All approvals are based on manufacturer recommended dilution with water unless otherwise specified and approval is void for any improper dilution.

If a particular cleaner/disinfectant is not listed, we advise to test the specific product in advance or to contact us to conduct testing.
