

AP45P Fully Automatic Grommet Setting Machine

FOR PLASTIC GROMMETS & WASHERS

Economical fully automatic feed (eyelets and washers) machine for small to medium sizes, direct drive pneumatic cylinder for cutting material and setting, electric motor driven parts movement. Washer detector mechanism that prevents the machine from setting a grommet without a washer.

- Feeds grommet and washer, cuts hole and makes setting in one cycle
- Direct drive pneumatic cylinders reduce mechanical complexity
- Plastic grommet sizes from 8 mm up to 12 mm
- Electronic washer detector and slide mechanism for perfect washer placement
- Positioning device for consistent spacing of settings
- Safe and easy to use

TECHNICAL SPECIFICATIONS

Feature	Imperial	Metric
Grommet size (hole diameter) - Plastic	5/16" - 15/32"	8 mm - 12mm
Throat depth	2 - 3/8"	60 mm
Machine weight	154 lbs	70 kgs
Machine weight (Bench model)	220 lbs	100 kgs
Machine size	24" x 17" x 28"	60 cm x 43 cm x 69 cm
Machine size on bench (DxWxH)	34" x 26" x 60"	85 cm x 66 cm x 152cm
Working air pressure	80 - 100 psi	6 - 7 bar
Air consumption per cycle	0.081 ft ³	2.3 L
Cycles per minute	50	
Electrical devices	Laser pointer (optional)	

Category: Grommet Machines
